

The Sanjay Ghodawat Group of Institutions secured

ISO 9001:2008 Certification

By devising a management system in conformance with ISO 9001:2008 requirements and implementing standardized management systems in teaching-learning process, the Sanjay Ghodawat Group of Institutions received ISO 9001:2008 Certification for its Engineering & Management division. CMA Rahul Mench, Lead Consultant & Auditor of Nemi Quality Consultants, a renowned strategic management consulting firm has provided training & consultancy services for securing ISO 9001 Certification to the Sanjay Ghodawat Group of Institutions. Under guidance of, Trustee, **Shri. Vinayak Bhosale** and Director **Dr. Vilas Karjinni**, a core team of all HODs led by Management Representative **Dr. Abid Salati**, has strived for last six months to achieve this esteemed recognition.

Shri. Ashok Rege, Auditor of MSA Certification Co. Ltd., (DAkKS, Germany accredited independent testing, inspection and certification agency) has audited the Quality Management System of Sanjay Ghodawat Group of Institutions. He was very appreciative of the group of institutions catering to diverse higher educational requirements with very good infrastructure. He had also appreciated management focus towards imparting world class education & staff commitment towards continual improvement in scholastic ability & effectiveness of teaching learning process. He has audited all processes at institute including canteen, hostel, laboratories & library. He remarked that most of the performance indicators are exceeding the benchmarks of various Indian education institutes.

ISO provide a basis for assessing the effectiveness of an educational management system and to develop quality consciousness among interested parties involved in educational activities. This standard provides framework for the effective educational management system and delivery of the holistic education program aimed at overall development of the students. The standard focuses on establishing systems to enable learning, self-development and improved performance. It encourages institutes to pursue continual excellence.

The ISO certification, hoped Shri. Vinayak Bhosale, Trustee of the Sanjay Ghodawat Group of Institutions, will be a motivating factor for teachers to deliver their professional responsibilities systematically. ISO certification was inevitable for quality infusion.

Explaining the significance of the ISO accreditation, Dr. Vilas Karjinni, Director, Sanjay Ghodawat Institute of Technology said that quality of teaching-learning process as well as teacher quality constitutes a chunk of the NAAC accreditation parameters. The management has been encouraging teachers with suitable work environment to present papers at academic conferences. He explained the various techniques practiced by institute to pave way for generation of readily employable candidates.
