“Engineering Education For Multifaceted Engineers”

13th to 15th August, 2016

HIGHLIGHTS

- ▶ The students work on the Mini project & implement the action plans in their respective colleges which would nurture them into better engineers. A few passionate engineers could be identified which could work alongside SPEED.
- ▶ Students get to broaden their network globally.
- ▶ Interested students will be invited to be a part of the global network.
- ▶ Best student action plan will be guided and facilitated.
- ▶ The team will get an opportunity to present their work during ISF-2017.

WORKSHOP OUTCOMES

- Students think and focus more on how they can work in synergy and accelerate process of improving quality of imparted engineering education and research.
- Stimulating leadership and educational growth.
- Provide pathways to academic leadership empowering their ability to create the necessary change that their education requires.
- Promote global awareness of student initiatives, & foster fraternity with local Indian students to strengthen educational outcomes.
- Action plans designed by Indian students to guide targeted impact of Indian technical education.
- Participants will receive certificate of successful completion of the workshop.

Faculty Co-ordinator

Mrs. S.S. Kumbhar
(Mob. No. +91 98505 58318)

Students Co-ordinators

Ms. Chetali Jeur (Mob. No. +91 96575 22792) Mr. Bhushan Patil (Mob. No. +91 77689 91416)

Mr. Dhiraj Kamble
(Mob. No. +91 95526 55440)

TRACKS

TRACK 1: Entrepreneurship in engineering education

TRACK 2: Arts in engineering education

TRACK 3: Resiliency in engineering education
